

ukiyo

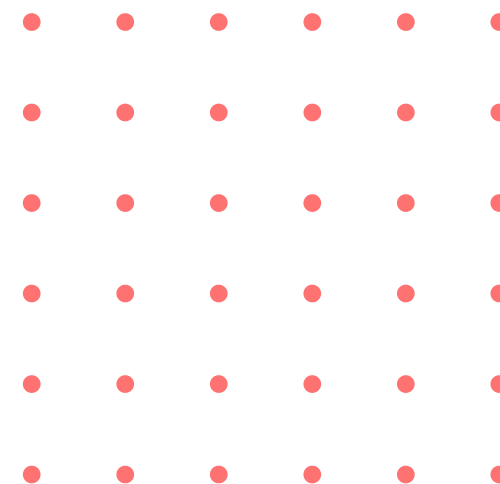

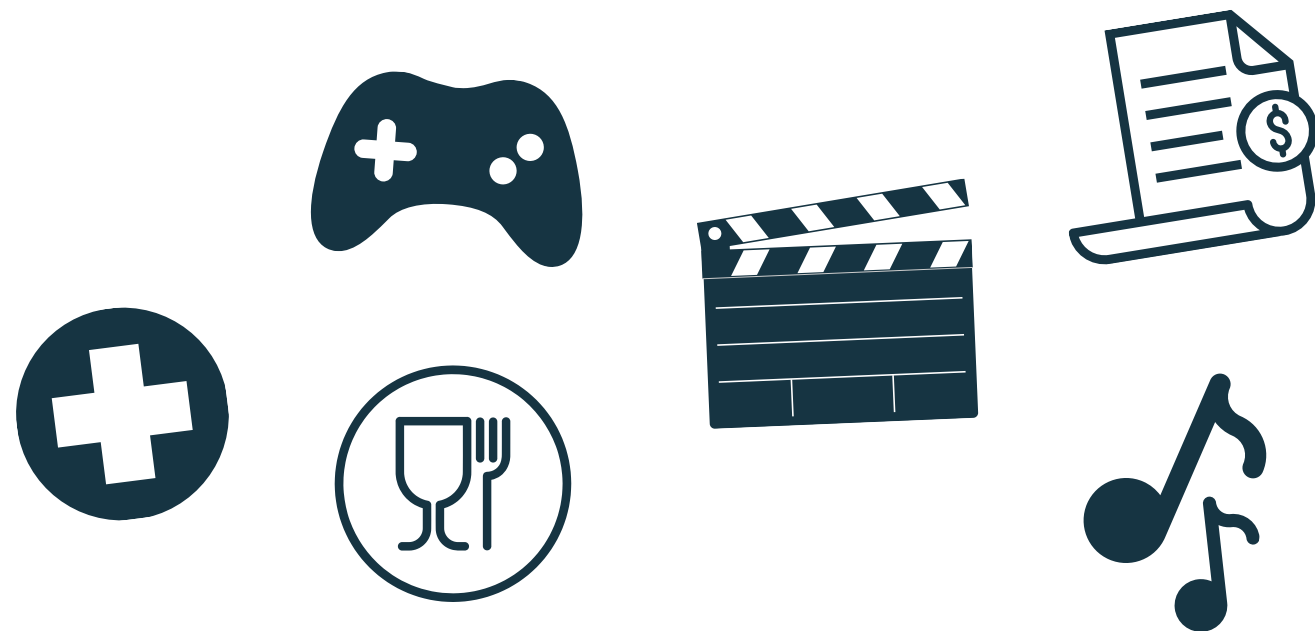

A web3 bridge to global venture
capital & RWAs

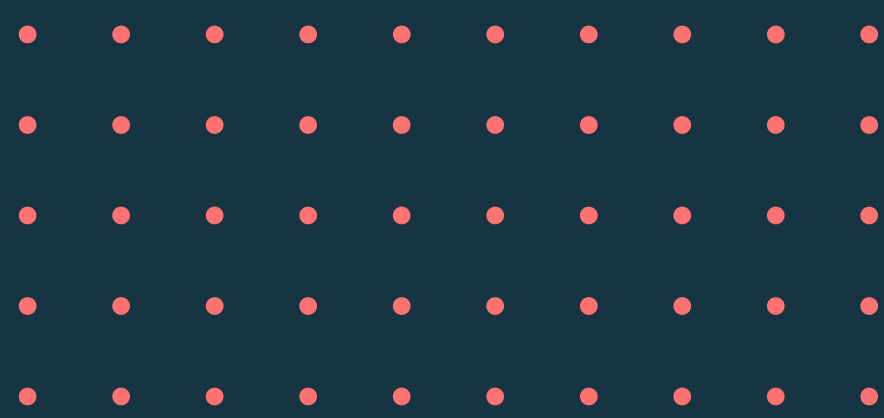

WHAT IF

You could change the way your crypto assets interact with the real world?

WHAT IF

You could invest as little as \$1 into amazing things?

Projects & Partners

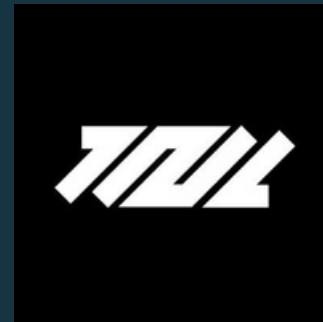

STORY PROTOCOL

Base Layer and Ecosystem =
Decentralized Protocol for powering
the next wave of creative innovation on
the Internet

HYPER ORACLE

Leverages power of succinct ZK
proofs, connecting with existing major
platforms like Coinbase or government
platforms to provide proofs of KYC
without revealing information. Whether
for licensing requirements or capital
formation (royalty pools)

7007 Studios = a web3 platform
helping artists in creating their own
fine-tuned models

Waylen Lin

Tech entrepreneur and film producer at the
forefront of building a new Hollywood social
network. As the founder and CEO of Netizaar Inc.

Executive Producer or Co-Executive Producer,
collaborating with Angelina Jolie on "Come Away",
Keanu Reeves on "Bill & Ted Face the Music",
Nicolas Cage and Joe Keaton on "Sympathy
For the Devil", Al Pacino, Charlie Heaton and
Diana Silvers on "Billy Knight". Currently working
with Michael Bay on the latest Transformers
Franchise

Web3reen

Generative AI and Story as the web3
Webtoon to lower the barrier for visual
storytelling and co-creation (character,
scene, multimedia experience)

Long term partner and collaborator
focusing on Value-Based Healthcare
Ecosystem: Value-Based Procurement
PROMs and Patient Engagement
CHOM certified partner

Problems

1

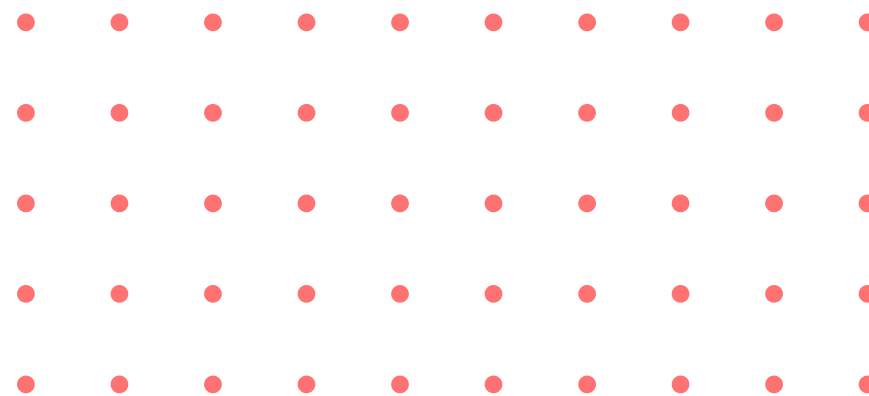

Financing Gap

2

High Barriers to
Entry

3

Ownership & Trust

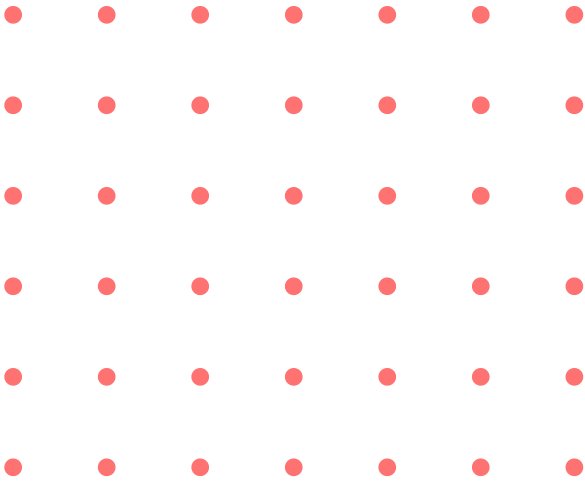

Solutions

	Web3 Assets Mobilization	Low Entry Barrier	Non Custodial	Decentralized	DAO Protocol

ukiyo Protocol

Interoperable token pools to kickstart disruptive on-chain and off-chain projects through a fast, secure and efficient platform

The home of decentralized venture funding powered by Ethereum

Whitepaper

Github

Protocol Stats

Total Value Locked

\$0,000,00

Token Price

\$0.077

Total Assets Deployed

\$0,000,00

Features

ukiyo Ventures

Become a disruptive investor via web3 and access start-ups and mid-stage projects

Enter App

ukiyo Staking

Earn passive income from the Vault. Stake KXO. Govern the protocol

Enter App

Ecosystem

Treasury

The Reserve and Liquidity of the protocol. Owned and controlled by the community

→

Vault

Learn about the Vault, its mechanics, and how you can earn \$KXO

→

Governed by the Community

ukiyo is a protocol that is entirely decentralized and governed by its community.

Learn

How it works

1

Request for Comment Submission (RFC)

Submit proposals and comments and engage with the DAO community.

Visit Docs →

2

Create a Snapshot

Use a Snapshot vote to measure community opinion on a new proposal.

Go to Snapshot →

3

Submit a Request for Improvement (UIP) for ukiyo

The proposal(s) can now be submitted via a Github pull request, and the DAO community can vote on approvals.

Visit Docs →
